## World Bank list of economies (January 2015)

*(Bold indicates a change of classification)*

<i>Economy</i>	<i>Code</i>	<i>Region</i>	<i>Income group</i>	<i>Lending category</i>	<i>Other</i>
----------------	-------------	---------------	---------------------	-------------------------	--------------

This table classifies all World Bank member economies, and all other economies with populations of more than 30,000. For operational and analytical purposes, economies are divided among income groups according to 2013 gross national income (GNI) per capita, calculated using the World Bank Atlas method. The groups are: low income, \$1,045 or less; lower middle income, \$1,046–4,125; upper middle income, \$4,126–12,745; and high income, \$12,746 or more. Other analytical groups based on geographic regions are also used.

Geographic classifications and data reported for geographic regions are for low-income and middle-income economies only. Low-income and middle-income economies are sometimes referred to as developing economies. The use of the term is convenient; it is not intended to imply that all economies in the group are experiencing similar development or that other economies have reached a preferred or final stage of development. Classification by income does not necessarily reflect development status.

Lending category: IDA countries are those that had a per capita income in 2013 of less than \$1,215 and lack the financial ability to borrow from IBRD. IDA loans are deeply concessional—interest-free loans and grants for programs aimed at boosting economic growth and improving living conditions. IBRD loans are nonconcessional. Blend countries are eligible for IDA loans because of their low per capita incomes but are also eligible for IBRD loans because they are financially creditworthy.

Note: Income classifications set on 1 July 2014 remain in effect until 1 July 2015. Moldova changed from IDA-only borrower to Blend borrower status, effective September 5, 2013. Latvia joined the euro area on January 1, 2014. Cape Verde's name changed to Cabo Verde on February 18, 2014. Lithuania joined the euro area on January 1, 2015.
